

As a 15+ year resident of Modesto I am disheartened to hear you are making changes that would affect my families personal edification by KLOVE radio.

My entire family has been truly blessed by the ministry of KLOVE radio.

My children, ages 12, 14 & 16, have an alternative to the popular radio stations that general do not uplift them.

We believe so strongly in its positive influence that we financial support KLOVE on a monthly basis.

In a culture that attacks our families with negative influences every day, many of them through the public airwaves, it is critical we defend and encourage radio stations like KLOVE.

If the LPFM proposal were to be adopted, my family and I would be negatively affected.

Thank you for allowing us to give our comments on this important issue.
